Technology Notebook

Here are some ideas on how to create strong and memorable passwords

- Never share your passwords—not even your friends. (Except with your parents)
- Don't use passwords that are easy to guess—like your name or favorite color.
- Never use any private information in your password. (No phone numbers, etc.)
- Don't use real words as a password.
- Create passwords with at least eight characters.
- Use combinations of capital and lowercase letters, numbers, and symbols.
- Change your password regularly—at least every six months.
- Don't use common words and numbers as your password.
- Do not use the same password for several logins.
- Do not rely on only replacing letters with numbers.
- Do not simply combine two or more real words.
- When registering on websites that ask for your email address, use a different password than your email account password.
- Take a phrase that is at least 8 words long from a song, book or movie. Use the first letters of each word. Make some of the letters capital. Substitute some of the letters with numbers and others with symbols.
- You may also use any sentence that you can create your self.
- This password becomes your "strong" password. To make other passwords, add on the "initials" for that site.

Examples:

- When I was twelve I lived in Hawaii becomes wiW12iL@H
- For my email I would use eMwiW12iL@H
- For Facebook fBwiW12iL@H

Weld County School District 6 Technology User Agreement

Internet Agreement

Weld County School District 6 encourages students to use the Internet and electronic communications, such as e-mail, to help them with their schoolwork. Using the school computers and the Internet is a privilege, not a right. Students have no expectation of privacy when using the school's computers. Students, you are expected to follow these rules:

I agree to ....

- use the Internet only when the teacher has given me permission. • tell the teacher immediately if I unintentionally access inappropriate material while using the Internet or electronic communications.
- never log in with someone else's name and password.
- never give others personal information while using the Internet or electronic communications unless specifically approved by the teacher or counselor.
- never arrange face-to-face meetings with persons met on the Internet or through electronic communications.
- not vandalize technology equipment or the district network. This will result in cancellation of privileges and may result in school disciplinary action and/or legal action.
- only use licensed software provided by the school. I will not load any personal software onto the computer.

I have read, understand and will follow the Weld County School District Six's policy on Student Use of the Internet and Electronic Communications. I understand if I do not follow this policy, I may lose access to school computers and disciplinary and/or legal action may be taken.

_____ Student's Name (printed)

_____ Student's Signature

Fair Use Guidelines

For Fair Use

- School Assignment
- Not for profit or for money.
- Original work or source is published.
- Original work or source is non-fiction work or facts.
- The original work or source material is important for the assignment.
- Small part of the original work or source is used in the assignment.
- The assignment is mostly your own work.
- The original work or source makes up only a small part of the assignment.
- You own or used a legally obtained copy of the original work or source.
- Your assignment or work should not effect the sale of the original work or source.
- You are making only a few copies of your assignment.
- Your assignment is not widely accessible to others
- Credit is given to original work's or source"s creator

Against Fair Use

- Your work is created for entertainment or fun.
- Your work is created to sell.
- Original work or source is not published
- Original work or source is highly-creative.
- The assignment doesn't need the original work or source to be complete.
- Large part of the original work or source is used.
- The original work or source makes up the main part of your assignment.
- You do not own or did not use a legally obtained copy of the original work or source.
- Your assignment or work may limit the market or income for the original work or source.
- You are making your work or assignment widely accessible to others.
- Credit is not given to creator of original work or source.

Part + Part + Credit = Fair Use
A Small Part of someone else's work used for a small part of your own work, and you give the other person credit will
usually be allowed for Fair Use. This is for school purposes only!
