**Student Absences (Excused and Unexcused)**

Significant learning is provided daily for all students in every district classroom. This educational opportunity is the result of in-class participation and quality classroom instruction. The benefits of this experience cannot be fully replaced. Consequently, regular and punctual attendance is an important criterion for success in school and absences are detrimental to effective learning.

Each student in the district is required to attend school daily as established by the calendar determined annually by the Board and in compliance with state law. Unauthorized absences shall be subject to disciplinary action as outlined in accompanying procedures. A cooperative effort between the student, parent, district and the community regarding attendance fosters a positive educational experience.

Therefore, the following goals and guidelines have been developed to establish good attendance habits at an early age. These habits will positively transfer with the students and their parents/guardians as students progress through the district’s educational program and beyond the scholastic setting.

The following shall be considered excused absences:

1. A student who is temporarily ill or injured or whose absence is approved by the administrator of the school of attendance on a prearranged basis. Prearranged absences shall be approved for appointments or circumstances of a *serious nature only* which cannot be taken care of outside of school hours. Approval for a pre-arranged absence(s) may necessitate a parent conference.
2. A student who is absent for an extended period due to physical, mental or emotional disability. Medical documentation may be required.
3. A student who is pursuing a work-study program under the supervision of the school.
4. A student who is attending any school-sponsored activity or activities of an educational nature with advance approval by the administration.
5. A student who is suspended or expelled.

**Attendance Plan and Attendance Court:** When a student has reached four absences from school in any month or ten absences during any school year, the school shall either require a meeting or other form of communication between the student’s parent/guardian and appropriate school personnel to review and evaluate the reasons for the student being habitually absent from school.

An attendance plan may be developed for the student with the goal of assisting the student to remain in school. When practicable, the student’s parent/guardian may participate with school personnel in the development of the plan. The district may require suitable proof regarding the above exceptions, including written statements from medical sources.

When the district is aware that criteria exist to designate a student as habitually truant, the district shall refer the students and his or her parent/guardian to the Weld County Judicial System, Youth and Family Connections and/or the Weld County District Attorney’s Juvenile Diversion Unit.

**Unexcused absences:** An unexcused absence is defined as an absence that is not covered by one of the foregoing exceptions. Additionally, an unexcused absence shall be recorded if a student leaves a school or leaves a class without permission of the teacher or school administrator. Each unexcused absence shall be entered on the student’s record. The parents/guardians of the student receiving an unexcused absence shall be notified orally or in writing by the district of the unexcused absence.
In accordance with law, the district may impose academic penalties which relate directly to classes missed while unexcused. Penalties may include a warning, school detention or in-school suspension. Academic penalties, out-of-school suspensions or expulsion shall not be imposed for an unexcused absence.

The maximum number of unexcused absences a student may incur before judicial proceedings are initiated to enforce compulsory attendance is 10 during any calendar year or school year.

**Tardiness:** Tardiness is defined as the appearance of a student without proper excuse after the scheduled time that a class begins. Because of the disruptive nature of tardiness and the detrimental effect upon the rights of the non-tardy student to uninterrupted learning, appropriate penalties shall be imposed for excessive tardiness. Parents/guardians shall be notified of all penalties regarding tardiness.

In an unavoidable situation, a student detained by another teacher or administrator shall not be considered tardy provided that the teacher or administrator gives the student a pass to enter the next class. Teachers shall honor passes presented in accordance with this policy.
Grading Philosophy

Summit Learning’s grading policy prioritizes the development of Cognitive Skills that students need for success in college and career. Because these are lifelong skills, Cognitive Skills cut across subjects, courses, and grade levels. A student’s score on the Cognitive Skills Rubric comprises 90% of a student’s grade. Summit’s focus on Cognitive Skills is supported by learning science and developed through Real-World Projects; students, teachers and families can track a student’s progression on these skills throughout their entire tenure in Summit Learning.

In order to put Cognitive Skills to work, students must develop a broad Content Knowledge base. A foundational component of Summit Learning is that students demonstrate competency on standards-aligned Content Knowledge across all core subject areas. Mastery of Content Knowledge comprises 10% of a student’s grade.

Grades demonstrate both the competencies students have and the growth they have made: Summit Learning’s grading policy is designed to reflect a growth mindset and celebrate student improvement.

Assessing Cognitive Skills in Projects

Students in Summit Learning develop Cognitive Skills by working on Real-World Projects. Teachers give feedback to students as they work through the Checkpoints of a Project and assess each Project based on the 4–5 Cognitive Skills (on average) the student has demonstrated in that Project.

The Cognitive Skills Rubric specifies grade-level and interdisciplinary expectations for each Cognitive Skill. Students progress through the year and through the grade levels along a continuum, demonstrating competency in a Cognitive Skill as appropriate for their level of development, with the goal of becoming college- and career ready. Each Cognitive Skill is assessed multiple times during the year in different subjects so that students, teachers, and families can track growth. Each Skill has a score between 0 and 8 based on the Cognitive Skills Rubric, and students must score at least a 6 on a 0- to 8-point scale to demonstrate college and career readiness.

Aligned to the emphasis on growth mindset, no grades are finalized in Summit Learning until the end of the academic year. This allows for students to demonstrate growth over a longer period of time without being held accountable at arbitrary points during the school year, such as a quarter or semester.

Assessing Content Knowledge

Teachers and mentors guide students in learning content through Content Playlists with a variety of available resources (primary sources, videos, text, etc.) as well as preparing for Content Assessments to ensure that they are practicing good study habits.

The Content Assessments in Summit Learning are designed to promote a growth mindset. There is no limit to the number of times a Summit student can take an assessment because Summit believes that a large percentage of learning happens in letting students persist through struggles and challenges. However, if a student fails an assessment more than a few times, his or her teacher or mentor will intervene to help them determine how to move forward.

The 10-question Content Assessments are graded in the Platform, and results are immediately accessible by teachers, students, and parents. Students must score at least an 8 out of 10 on the Content Assessment to show mastery.

Teachers can use real-time test results to easily identify which students need help on specific Focus Areas and provide additional scaffolding on those topics.
Code of Conduct

District 6 expects all students to behave appropriately for an educational environment and follow school rules. All schools are expected to establish behavior guidelines as defined in the school's positive behavior intervention and support (PBIS) plan. Any behavior which disrupts the learning environment, and/or is detrimental to the safety and welfare of other students or staff is subject to disciplinary action.

The principal or designee may apply disciplinary consequences including suspension or a recommendation for expulsion for any student who engages in one or more of the following activities while in school buildings, on district property, when being transported in vehicles dispatched by the district or one of its schools, during a school-sponsored or district-sponsored activity or event and off school property when the conduct has a reasonable connection to school or any district curricular or non-curricular event.

Consequences for inappropriate behavior are contained in the following chart which is used in all schools. The school’s responses to inappropriate behaviors are subject to change by the direction of Weld County District 6 Board of Education. Prior to the imposition of a consequence, the student will be informed of the behavior for which the consequence is being imposed and will have some opportunity to explain his/her side of the story.

If a student is assigned an out of school suspension, they will not be allowed to be a spectator at athletic events for the remainder of that sporting season. If a student is assigned an in school suspension, they will not be allowed to be a spectator at a sporting event for that week of suspension.

Students using the Internet must abide by the provision of the District 6 Technology User Agreement and Colorado Revised Statute 18-5.5-101 and 18.5.5-102 (also Title 17, USC Section 102). Copies are available upon request. For students identified as disabled and on an Individual Education Plan, please refer to policy/procedure JK*-2.

Please note that any infraction marked with an asterisk (*) may involve a school police resource officer or local law enforcement agency. CCS means community/campus service and suspension can be in-school (ISS) or out-of-school (OSS).
Response to Behaviors

Greeley-Evans School District 6 developed a level system to help identify and provide appropriate interventions to address student misconduct. While every attempt will be made to maximize the time that students are engaged in the learning process, schools should select interventions that support students and maintain an orderly and safe learning environment.

**Discipline of students with disabilities:** Schools should review and be familiar with the district’s policies before undertaking discipline of students with disabilities (IEP or 504 plans). For additional guidance please contact the Office of Special Education (970) 348-6103.

**Title IX:** If the incident has any indication of sexual harassment (see policy AC-R2 for specific definitions) or discrimination/harassment against athletes, SOGI (Sexual Orientation and gender identity) or student who are pregnant, call your Title IX Coordinator before moving forward with disciplinary actions (970) 348-6104. [Title IX Rules & Regulations Website](#)

**PK-2 Suspensions/Expulsions:** Suspensions for students in PK-2 and expulsions for students 12 and under need to include Assistant Superintendent in the conversations, and document alternative behavioral and disciplinary interventions ([BOE policy JKD/JKE](#)).

**Bullying Prevention and Education**

Bullying behavior can have a negative effect on the school climate and can lead to more serious behaviors affecting the health, safety, and welfare of students. The Board supports a secure school climate, conducive to teaching and learning that is free from threat, harassment and any type of bullying behavior.

The purpose of this policy is to promote consistency of approach and to help create a climate in which all types of bullying are regarded as unacceptable. Bullying is the use of coercion to obtain control over another person or to be habitually cruel to another person. Bullying can occur through written, verbal or electronically transmitted expression or by means of a physical act or gesture.

Bullying is prohibited on district property, at district or school-sanctioned activities and events, when students are being transported in any vehicle dispatched by the district or one of its schools, or off school property when such conduct has a connection to school or any district curricular or non-curricular activity or event. A student who engages in any act of bullying is subject to appropriate disciplinary action, including suspension, expulsion and/or referral to law enforcement authorities. The severity and pattern of the bullying behavior, if any, shall be considered when disciplinary decisions are made.

Teachers who observe or become aware of bullying shall take appropriate steps to intervene and/or report such behavior to the school principal. Parents and students who become aware of bullying are encouraged to report it to the school principal. School principals shall take appropriate steps to educate students about ways to prevent bullying.

**Personal Property**

Weld County School District 6 is not responsible for lost or stolen personal electronic items that are brought to school. It is highly recommended that these devices not be brought to school.

**Student Use of the Internet**

Weld County School District 6 encourages students to use the Internet and electronic communications, such as e-mail, to help them with their schoolwork. Using the school computers and the Internet is a privilege, not a right. Students have no expectation of privacy when using the school’s computers.

Students shall use district computers and computer systems in a responsible, efficient, ethical, and legal manner. Students are expected to follow these rules:

- use the internet only when the teacher has given permission.
- tell the teacher immediately if they unintentionally access inappropriate material while using the Internet or electronic communications.
- never log in with someone else’s name and password.
- never give others personal information while using the Internet or electronic communications unless specifically approved by the teacher or counselor.
• never arrange face-to-face meetings with persons met on the Internet or through electronic communications.
• not use the internet or electronic devices to bully, harass, threaten, demean, or promote violence or hatred against another person or group of persons.
• not vandalize technology equipment or the district network. This will result in cancellation of privileges and may result in school disciplinary action and/or legal action.
• only use licensed software provided by the school and not load any personal software onto the computer.

**Student Email**

Greeley-Evans School District 6 will provide a free email account for every student unless parents complete an opt-out form. Students will receive training on appropriate use of email before teachers provide them with their usernames and passwords. Training will include: dealing with potential bullying, handling email from unknown senders, general email etiquette, and informing students that email messages leave a permanent digital record.

Resources can be accessed at [http://www.commonsensemedia.org](http://www.commonsensemedia.org)

Acceptable use of email falls under the policy governing student use of the Internet and electronic communications. Policy JS states that no student shall access, create, transmit, retransmit, or forward material or information:

1. That promotes violence or advocates destruction of property including, but not limited to, access to information concerning the manufacturing or purchasing of destructive devices or weapons.
2. That contains pornographic, obscene, or other sexually oriented materials, either as pictures or writings that are intended to stimulate erotic feelings or appeal to prurient interests in nudity, sex, or excretion.
3. That harasses, threatens, demeans, or promotes violence or hatred against another person or group of persons in violation of the district’s nondiscrimination policies.
4. That uses inappropriate or profane language likely to be offensive to others in the school community.
5. That is knowingly false or could be construed as intending to purposely damage another person’s reputation.
6. That contains personal information about themselves or others, including information protected by confidentiality laws.
7. Using another individual’s Internet or electronic communications account without written permission from that individual.
8. That impersonates another or transmits through an anonymous remailer proxy.
**Student Use of Cell Phones and Other Electronic Communication Devices**

The Board of Education believes personal technology devices may be useful tools for students in the educational environment and can play a vital communication role during emergency situations. However, use of personal technology devices (PTD) in school situations must be regulated to assure that the use of such devices does not disrupt or interfere with the educational process or school operations. Therefore, students may only use PTDs on district property, on a district vehicle or at a district or school-sponsored activity or event in accordance with this policy.

For purposes of this policy, "personal technology device" (PTD) includes any privately-owned portable technology device, including but not limited to cell phones, pagers, tablets, laptops, cameras, audio and/or video recorders and players, and all other hand-held electronic communication and data storage devices.

Students may use PTDs as a designated tool for learning if authorized by the student's teacher. It is the student's responsibility to ensure that the PTD is turned off or placed in silent mode during unauthorized times.

Students' use of PTDs with cameras and/or video recording capabilities is prohibited in locker rooms, bathrooms, or any other location where such use could violate another person's reasonable expectation of privacy.

Students shall not use PTDs to engage in, promote or facilitate any other conduct that violates the student code of conduct, other Board policies or regulations, or state or federal law.

Violation of this policy or any other district, school or classroom rule or regulation on student use of PTDs may result in disciplinary measures and/or temporary confiscation of the PTD. Confiscated devices shall be returned to the student only after a conference with the parent/guardian, student and school personnel. If the building principal or designee believes a student's possession or use of a PTD may involve a violation of the law, the building principal or designee may also refer the matter to law enforcement.

The district shall not be responsible for loss, theft or destruction of PTDs brought onto school or district property or while the student is attending district or school-sponsored activities or events. Please refer to Board policies JICJ, JIC, JIH, JK, and JS for more information regarding District 6 policies and procedures regarding the use of PTD at school or during school activities.
