Welcome to Martinez!

Every Child, Every Day, Success for All!

We are a neighborhood school rich in culture, tradition and high expectations for student success. Our goal is to provide a challenging education to all children. We believe we have a huge responsibility to ensure the success of every child in our school community. We provide a safe, caring environment where children and families are welcome and considered part of our Martinez Family. Every member of the Martinez team works hard to ensure we help every child, every day!

23

Our Mission:

To prepare all students in a fair, challenging, and safe learning environment to become self-motivated, independent problem solvers. Our professional staff is dedicated to fully meeting the goal of success for every child, every day.

School Focus: *Building the Foundations of Life Long Learners*

Martinez Elementary is focused on the development of every child's ability to read, write, and problem solve. Teachers use data focused on our goals to plan and implement quality instruction to students. We believe every child has the ability to attain mastery of rigorous academic standards. We view our work as the foundation of the educational house. It is our job to make sure the foundation of learning is so strong our students are successful learners for the rest of their lives. This starts with solid instruction in reading, writing, and problem solving.

Reading is focused on five essentials of successful reading: phonics, phonemic awareness, fluency, vocabulary and comprehension.

Writing skills are developed through direct instruction of secretarial skills and practiced through the use of Writer's Workshop to develop the nuances of writing.

Problem solving is the ability to solve real-world problems related to math and science. Martinez students work hard to learn and develop the conceptual understanding of math. We provide a hands-on approach to learning math concepts throughout each student's elementary experience.
