### February 3, 2015: Creating & Facilitating Gifted Student Discussion Groups Grades 3-12

Healthy social and emotional development doesn't always "just happen". For many it is encouraged through a supportive, caring environment specifically designed to foster such growth. This session addresses the needs of gifted and talented students, 3-12, whose social and emotional development may be qualitatively different from others their age. Step by step details will direct educators and professional support staff on how to effectively facilitate discussions. **Speaker: Terry Bradley**

### April 7, 2015: Advocacy—The Elephant in the Room

"It takes a village." Gifted students need advocates throughout their lives both at home and at school. Meet one student who has faced tremendous challenges, yet through the support and advocacy of a system has a positive story to tell. Explore the various avenues for educator and parental advocacy, and how a team of the two is effective and dynamic in making a difference in both the academic achievement and affective well-being of gifted learners. **Speakers: Sharon Duncan, Dr. Johanna Haase**
