

what are your top 4 priorities for design features in the new school?

vote (place dots here)

library: 

-what does a 21st century library look like and how do students access information-

cafeteria-commons and stage: 

-a place to come together can form the heart of the community; it also helps develop social and communication skills-

outdoor playfields: 

-the lessons learned from team sports are just as important as the ones learned in the classroom-

gymnasium/athletic facilities: 

-athletics as well as academics can bring prestige and excellence to a school-

outdoor learning spaces: 

-stretching the classroom to the outdoors provides opportunities for fresh air and an interaction with nature that just can't take place in the classroom-

exploratory / elective classrooms: 

-embracing different styles of learning through art, music, and technology are key to diversified learning-

breakout space: 

-the ability to have small group learning outside of the classroom adds depth to the educational possibilities-

classrooms: 

-learning environments should respond to student focused curriculum-
