## Slave State and Free State 1861 Map- finish at home wk 1

Grade: N/A

Your assignment submission has been received.

Use online research to determine which states are slave states and which states are free states in 1861. Don't include the territories because they did not have slave or free state classifications.

Then drag and drop the icons that associate with the status of the state on to your map. Feel free to change the size of the icon as you need to. The small states are written out on the East side so that you can put an icon next to the name instead of trying to fit the icon inside the state.

Make sure that you go to slide 2 to answer the question that is on that slide.

Once you are done, save your document to your computer as PDF and then upload your PDF to this assignment post
