Reflections from Work Session #4.

## Reflections

- Risk taking - there's a lot at stake. Academics tend not to be risk takers. Have to do.
- Bldgs need to support students
- Need support from leadership + to educate public

## Reflections ~ Sir Ken Robinson

- as we go thru process are we thinking like students? when do we engage them?
- what holds society back from change?
- Movement thru blended learning in District 6
- There are a lot of things going on in District 6 - Success Foundation = maker spaces personalized learning → engagement
- How do spaces allow these? flexible, adaptable
- we have too much invested
- innovation is a part of the future let kids loose
