Logo Variations

These are the acceptable variations for the logo in both horizontal and vertical formats. With the vertical variation being the preferred option to be used whenever appropriate.
Incorrect Logo Usage

Do not change the colors even if they look similar. Use the specifications detailed in these guidelines.

Do not distort the logo. Always scale proportionately.

Do not use the logo in colors other than the specific teal and blue.

Do not use graphic effects (e.g. drop shadows) or outlines.

Do not resize the position of the logomark

Do not use screens (tint percentages) of the approved color palette in positive or reverse logo usage.

The examples on this page demonstrate incorrect use. If there is a question about proper use, consult with other sections of these guidelines or contact the District 6 communications department.

The integrity of the signatures must be respected at all times. The basic rule is to not alter or distort the logo in any way. Do not stretch, squeeze or otherwise morph or manipulate any element of the logo. Never redraw the logo, alter the placement, change the size relationship, or recreate the logotype.
Be particularly careful that the logo is not applied on background colors, patterns, or photographs that visually compete with the logo.

Electronic files of logos are available to ensure the consistent and proper use.
