

Special Dietary Needs Procedure

***IMPORTANT NOTES:**

- If a student transfers to another District 6 school, it is the responsibility of the Kitchen Manager and the Health Clerk/School Nurse to (confidentially) pass this on to the counter parts at the site that the student will be moving to.
- Special Dietary Needs Documents* are not required to be recompleted annually. However, the NMS needs to be alerted if a special dietary need will carry over from one year to the next--OR--if special dietary needs change.
