Movement Competence and Understanding: Demonstrate body and spatial awareness through safe movement: locate the major parts of the body.

Physical and Personal Wellness: Understand that physical activity increases the heart rate, making the heart stronger.

Emotional and Social Wellness: Demonstrate respect for self, others, and equipment; demonstrate the ability to follow directions.

Ideas for Parents to Make Learning a Priority:

- Ask your child on a regular basis to share with you about the events, homework and activities of the school day.
- Encourage your child to do his or her best in school every day and make graduation the goal.
- Ensure that your child attends classes on a regular basis and honors the start and end times of the school day by being punctual and well prepared. This includes supporting the school rules and dress codes.
- For thirty minutes each day, read to your child and for older students encourage them to read daily.
- Provide a quiet well-equipped location in your home for your child to complete homework.
- Help your child set goals at the beginning of each month. Make sure learning goals are specific and visible. Celebrate successes with your child when goals are achieved.
- Whenever possible attend school activities such as open houses, parent-teacher conferences, and special events. When your child sees you involved, they will also see education as a high priority.
- Try to make early, positive, and regular contact with your child’s teacher and get in touch whenever you have questions about your child’s program or progress.

You are your child’s first teacher. Family values, language skills and cultural traditions/customs are examples of things you teach your children. District 6 will build on that unique blend of knowledge and experience when your child comes to our schools. We are dedicated to meeting the needs of the whole child to encompass all physical, emotional, and social skill sets, but we cannot do this without your help.

We know that family involvement helps children develop a more positive attitude about school and about learning. District 6 wants families to know as much as possible about the curriculum so that you can continue to be a “teaching partner” for your child.

The learning expectations listed describe the foundational learnings for the year, based on the Colorado Academic Standards (CAS). The CAS provide a grade-by-grade road map to help ensure students are successful in college, careers, and life. The standards aim to improve what students learn and how they learn by emphasizing critical-thinking, creativity, problem solving, collaboration, and communication as important life skills in the 21st Century.
