

May 14, 2012

Dear Parents,

Your child has received a bookmark here at school that contains information about the summer reading program through the High Plains Library District, the public libraries in Greeley. We highly encourage you to get your child involved with this program. Not only can they win prizes for reading over the summer; they get the extremely valuable reading practice they desperately need. They work so hard over the school year learning to become better readers. It's important that they keep practicing those skills, or they are at risk of losing some of what they learned over the school year. You can help by getting them involved in this summer reading program and encouraging them to read every day during the summer months. Reading to them in another language is helpful as well, but children also need to read in English every day.

The information for the summer reading program is as follows:

- 1) Pick up your reading log at:
Centennial Park Library
2227 23rd Ave.
Greeley, CO 80634
- 2) Check out books at the library with your FREE library card (apply at the library).
 - a. A suggested summer reading list is enclosed.
- 3) Fill in the reading log that you pick up at the library.
- 4) Turn in your completed reading log to any Greeley library at the end of the summer.
- 5) Win raffle prizes!

Have a very enjoyable summer taking new adventures and reading with your child!
